### **Trial Eligibility and ORTs**

The ORT Title must be earned at least 14 days before a trial opening date to be eligible for the first draw period.

All odors must be passed in order to earn the ORT title. It is not required that they all be passed at the same test.

### **Notification**

Acknowledgement of entry acceptance/confirmation, will be made by email when entries are processed for those handlers that provide an email address. If you require confirmation via USPS, you must provide a self-addressed stamped envelope with your entry. Your payment receipt and notification are confirmation of your completed entry.

### **Basic Description of the Test**

To successfully pass an ORT a dog must identify the location of the target odor, and the handler must correctly call an "alert" within a **two minute 30 second (2:30)** time period. The Odor Recognition Test consists of a drill type exercise which requires 12 closed boxes typically set up in a pattern of two rows, spaced a **minimum of 36" apart**. The ORT is conducted on leash. Complete information can be obtained on the NACSW website. Handlers may test on all 3 odors at the same event.

*All exhibitors should obtain and review a copy of the **NACSW K9 NOSE WORK® RULE BOOK**. You may get it from their website: [www.NACSW.net](http://www.NACSW.net)*

**No dog will be given more than one space in the same odor test at a single event.**

### **Results**

During the odor re-sets, the official results sheet will be brought out to the parking area for testers to photo or review. We recommend you verify your results on the official results sheet and let your host or judge know if you have any questions regarding your results.

## LOCATION DETAILS

### **ADA Site Specific Conditions**

This site is a dog training building. The parking lot is paved and fairly smooth. Both the staging building and the test building can be accessed without going downstairs. The buildings are close together.

Due to unforeseen conditions, such as weather or change in availability of areas at the location, these conditions may be modified at the last minute.

Modeled after real-life detection work, NACSW events are held in many different locations, with a variety of terrain, under varying weather conditions. Dogs and handlers need to be able to safely negotiate a variety of surfaces, including, but not limited to, tile, linoleum, carpeting, gravel, asphalt, uneven surfaces, and slippery footing. Handlers should be prepared to deal with a variety of weather conditions, including heat, cold, rain and snow. Events frequently require covering extensive distances to get to and from the parking area to each of the search areas and generally require that this be done across natural, uneven surfaces. Handlers should be prepared for physical demands and must be able to navigate the terrain with their dog accordingly. Handlers should expect to spend most of the day outside or in their vehicles as there are rarely indoor crating options at events. Please be prepared for you and your canine partner to deal with all of these varying environmental challenges. Handlers should familiarize themselves with potential regional risks and health concerns that may affect themselves or their dogs. Handlers agree that they are entering this event at their own risk.

**Due to unforeseen conditions, such as weather or change in availability of areas at the location, the details below may need to be modified at the last minute.**

### **Parking**

The parking lot is paved with no shade available. The parking lot is small with no extra space between vehicles. Please be considerate of our neighbors and park only where the volunteers direct.

### **RV Parking**

There is no space for RV Parking at this site.

### **Running Vehicles or Generators in the parking lot**

The parking is tight at this location and running your vehicles or generators in the parking lot is not allowed at this event.

### **Reactive Dog Parking**

: There will not be specific reactive dog parking at this event.

### **Unentered Dogs**

Unentered dogs must remain in the handler's vehicle during the event day. There will be ample potty areas, but unentered dogs should not be allowed to "play", exercise, or train on the event grounds.

### **Crating**

: We will have an indoor crating area with lots of space; however, the building available for crating is not air conditioned. You must bring something to put under your crate and chair, to protect the turf.

### **Facility/Site Prohibitive Restrictions (e.g., smoking, firearms, alcohol, drugs, video)**

Alcohol is not allowed on this event site

Smoking is allowed on this event site but only in designated smoking areas.

Firearms are prohibited on the property.

### **Hotels**

A list of area hotels is available upon request from the trial secretary.

## DOG INFORMATION

## Dog Policies

- All dogs must always be on a 6' leash when not searching. NO flexi-leashes while not participating in a search.
- Reactive and/or spatially challenged dogs should wear a red bandana (to be provided by the dog's handler) to help signal others that the dog needs extra space from other dogs.
- Dogs will be toileted in designated areas and handlers must pick up and dispose of waste.
- Dogs and handlers must stay in designated areas to avoid contaminating search space, interrupting a search, or from viewing any part of the search.
- Handlers should expect to keep their dogs confined in a crate or vehicle when not searching. The logistics of an event typically do not allow for dogs to hang out on leash in between searches. Handlers should plan to provide their own shade using canopies or shade cloths.
- Refer to location details (above) for information on unentered dogs.

## Females in Season

Females in season are allowed to participate in ORTs. If there is a bitch in season participating in the ORT, she must wear panties and will run in the second test, at the end of each odor.

Spectators are reminded that the hide placements must not be discussed, nor should they speak with any handlers about what they saw until after the event is complete.

No dogs will be allowed in the spectator area. No unentered dogs with spectators are allowed at the event. An adult accompanying a minor must be present during the searches.

Everyone at the site must sign the waiver provided by the host and comply with all event requirements. Handlers are not allowed to watch the searches at any time.

### **Videotaping and Photography**

Handlers may wear visible head or chest cameras to record their searches. You will not be allowed extra time at the start line to get your camera functioning. Please be sure it is ready to go prior to arriving at the search area. At ORTs, handlers may bring a spectator to video or photograph their searches. Videos may not be made public until completion of the event day.
